

NO HIGHER TRIBUTE

To Flynn Than the Fight Made
Against Him

BY RESERVATION COWMEN

Because He Is the Man Who
Opens Reservations.

Guthrie, O. T., Sept. 17.—According to the Oklahoma City Times-Journal, the cattlemen and the squawmen and half breeds who control the Osage, Otoe and the other small reservations and who are warring rich off the present order of things have formed a league, the purpose of which is the prevention of further legislation to open reservations to settlement. The first point agreed upon was the defeat of Flynn and the election of Neff, and the next was a big assessment to defray Neff's campaign expenses. The men who desire to hold these reservations do not want Flynn elected, because Flynn is almost certain to force these reservations open to settlement. Neff was taken up because they believed that he, like Callahan, could accomplish nothing in Congress. A campaign contribution was made in cash, and a pledge was made to raise \$20,000 if necessary to elect Neff.

McMASTER ON STRAIGHTOUTS

He Reports Good Progress and Roasts the Fusionists.

Guthrie, O. T., Sept. 17.—Frank McMaster, who is taking an active part in arranging for a convention of the straight-out Democrats of Oklahoma at the city of the first, to protest against the fusion ticket and to put up an independent ticket, says in an interview: "We are more than satisfied with the conditions we meet with in our efforts to purify our party of the men that are making it a refuge for an office-seeking and office holding class that believe that they should have a life tenure of all the offices. The fact that nine of the candidates are from the second ward of the city alone is enough to give us a thousand votes from men who believe that the officials of the county should represent the county by virtue of the fact that they are from the county. The reports that I am receiving from every township indicate the greatest state of disgust with the ticket and the action of the eighty-eight delegates who voted for the dishonorable fusion that was effected. The idea that this number of men can bind the thousands of Democrats in the county by voting for a fusion ticket that was not nominated in the call or rally and there will be at least 1,500 votes against the fusion ticket that will be cast for the straight ticket."

TO CURE A COLD IN ONE DAY

Take Laxative Bromo Quinine Tablets. All druggists refund the money if it fails to cure. E. W. Grove's signature is on each box.

AS GOOD AS HIS PROMISE

J. D. Davis, Populist of Blaine County Will Vote for Flynn.

Guthrie, O. T., Sept. 17.—The Watonga Republican says: J. D. Davis, a prominent Populist of Blaine County, made the statement yesterday that he never had voted for Flynn, but if he pleased the free home bill, he would vote for him for anything that he wanted. Mr. Davis now says he fully intends helping by his vote to re-elect Flynn this fall. Mr. Davis is not one among many of the fair minded Populists of this county who will not come back on a man who has done as much for the homesteaders as Dennis Flynn.

DIED BY A FILIPINO BULLET

Private John N. Spencer of Near

Oklahoma City, O. T., Sept. 17.—Barry J. Lantry of the Thirty-third regiment, writes from Lapoe, Luzon, as follows, of the death of an Oklahoma boy: "When the captain and his men were about a mile and a half from Lapoe they received a terrific volley of Mauser bullets from all sides. Private John N. Spencer, who lived at Cherokee City, Oklahoma, and near Lapoe, was killed by the first shot. Corporal Reynolds had his horse shot from under him, as did also the captain. Corporal Reynolds was also wounded in the neck."

Darwin Hated Bitten by a Rattlesnake

Guthrie, O. T., Sept. 17.—Darwin Mann, who lives on Joel Coker's farm, was bitten by a rattlesnake last Friday morning. The snake had come up into the room during the night and when Mr.

For a living, he has to. He must "make hay while the sun shines," no matter how he feels. The result is overwork. The stomach usually gives the first sign of strain. The organs of digestion and nutrition are deranged. Food does not nourish. Indigestion appears. In such a case Dr. Pierce's Golden Medical Discovery re-establishes the health by a complete cure of the diseased organs of digestion and nutrition. It cleanses the stomach, purifies the blood and removes the causes of disease. It is a temperance medicine, and contains no whisky or alcohol.

"I was troubled with indigestion for about two years," writes Wm. Zwickler, Reg. of Juliette, LaSalle Co., Mo. "I tried different doctors and remedies but to no avail. I read of Dr. Pierce's Golden Medical Discovery and I bought a bottle and he told me what to do. I suffered with pain in my stomach and felt sick and thought it would kill me. I am glad to write and let you know that I am all right. I can do my work now without pain and I feel like a new man. I feel like I need to have. Five bottles of Dr. Pierce's Golden Medical Discovery and two bottles of Dr. Pierce's Kidney Cure."

Such people can consult Dr. Pierce by letter free. All correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

FOUND IN A CREEK

Body of a Young Man Named
Mendelcheck, at Purcell.

WAS PROBABLY LASOED

Man Seen Riding Furiously
From the Scene.

Purcell, I. T., Sept. 17.—The body of a young man named Mendelcheck was found in Walnut creek, in the southern part of this city Saturday night under circumstances which prove that a most foul murder has been committed. The head of the dead man was crushed in, evidently with a blunt instrument in the hands of an assassin, and there are many other evidences of foul play. The body was found just before dark by a farmer who was coming into the city from the south. Just before arriving at the Walnut creek bridge, he met a hatless horseman riding south at a furious rate, and while crossing the bridge discovered the body of Mendelcheck lying in the water below. He gave the alarm and soon quite a crowd was on the scene. It was discovered that Mendelcheck had been dead but a few minutes as the body was still warm. About 200 yards north of the bridge the team and hack which the dead man had been driving was found by the roadside, and marks on the sand indicated where the body had been dragged from there to the bridge. No instrument with which the head could have been crushed was found and the theory is that Mendelcheck was lassoed and pulled from his wagon, killing him. Marks on the neck indicated that a rope had been tied tightly around it, although it may have been done after Mendelcheck was killed. It is supposed that the man who was seen riding south from the bridge just before the body was discovered is the man who did the work, although there is no proof of this. His name is known and a posse is now in pursuit of him. Mendelcheck was a prominent farmer living six miles south of town. There is no motive known for the crime, as he was at peace with all his neighbors. There is considerable excitement over the affair.

STILLWATER'S BIG ATTENDANCE

Several Departments Crowded At

Stillwater, O. T., Sept. 17.—On the opening day at the Agricultural and Mechanical college, more students are in attendance than at any similar period heretofore. The recent heavy rains have delayed the coming of many and it is certain that before the close of the week the attendance will reach 250. Much of this large increase in attendance is due to the improved condition of the people of the territory and their consequent ability to provide for the education of their children. A large part, however, is because of more intimate knowledge concerning the character of the work done by the institution and the facilities which it possesses for giving a first-class education. There is even yet great skepticism on this latter point among a few but a visit to the college effectually banishes it.

THE NEW CHEMISTRY

It was thought that the new chemistry building would serve the growing needs of that department for many years, yet with the opening of the first year after its completion the capacity of the sophomore laboratory is exceeded by ten and it will be necessary to make two divisions of the class. The quantitative laboratory for advanced work in chemistry contains desks for eighteen students; seventeen of the places are occupied. The mechanical department is even more crowded than this, there being but a small amount of available space for student work. Unless more space is soon secured for the important work of this department it will be necessary to curtail the work of instruction and turn away students who wish to take the course in engineering.

OKLAHOMA CITY BOND SALE

W. L. Turner Bids Off the Issue at

Guthrie, O. T., Sept. 17.—In the Oklahoma City bond sale, the Oklahoma City bonds were sold at a premium and the waterworks city hall and sewer bonds, voted at the recent municipal election, to M. L. Turner of this city. The bonds were sold at public auction and the purchaser gives \$125 premium, the bonds bearing a five percent interest. Mr. Turner is to pay for the lithographing of the bonds, which will cost \$25, making the bonds sell at 150. It had been advertised that the council would receive sealed bids for the bonds, but only one bid was received and that was not considered because of the fact that it did not contain the certified check for \$250, which the council had decided must accompany all bids. As all of the bond buyers present were in favor of a public sale, and as it was evident to the council that in no other way could the bonds be sold for so good a price, this method of disposing of them was adopted, and J. H. McCartney was chosen as auctioneer. The bidders were M. L. Turner, New York; Trowbridge & Niver, Chicago; J. R. Edwards, Oklahoma City; White & Co., started the bidding at par for 5 percent bonds. The bidding was spirited until Mr. Turner's bid of \$275 was reached, beyond which none of the other bidders could be induced to go. Fulton & Co. only bid on \$20,000 of waterworks bonds, as they did not desire to invest in bonds, beyond the 10 percent limit.

THE HIGHEST BID OF ANY COMPANY

represented was as follows: M. L. Turner, Oklahoma City, \$275; T. R. Fulton & Co., Chicago, par for \$20,000 of bonds at 4.5 percent; P. T. White & Co., New York, \$200; Trowbridge & Niver, Chicago, \$200; J. R. Edwards, Oklahoma City, \$200. Under the provisions of a fine sale, 50 percent of the amount of waterworks bonds to be turned over to the city on or about October 1. The remainder is to be paid on the 1st of November, or in sums as needed for building purposes, at the option of the city.

Stringtown's Postmaster Shot.

Albino, I. T., Sept. 17.—This evening at Stringtown, nine miles north of here, Ray, Gus Brown, ex-postmaster at that place, was shot and dangerously wounded by Henry McClelland, a negro. During the fight McClelland's horse was killed from under him. McClelland is still at large.

with our population, and is, therefore, not desirable as a permanent citizen. His presence as a temporary laborer, preserving his national identity and maintaining a foreign scale of wages and living, must ever prove an injustice to American producers, as well as a perpetual source of irritation.

PENSIONERS

The party expresses its pride in the soldiers and sailors of our war, and declares its purpose to deal generously with them and their dependents. A liberal policy is natural and necessary in a government which depends upon a citizen soldier, instead of a large standing army. Self-interest, as well as gratitude, compels the government to make bountiful provisions for those who, in the hour of danger and at a great sacrifice, of business, health, and life, tender their services to their country.

The pension laws should be construed according to the generous spirit which prompted their passage. The platform very properly reiterates the position taken in 1894, that the fact of enlistment shall be deemed conclusive evidence that the soldier was sound when the government accepted him. A certificate given now to the health of a person 9 years ago, even if easily obtainable, should not have as much weight as the certificate of the medical officer who examined the volunteer with a view of ascertaining his fitness for army service.

NICARAGUA

The Democratic party is in favor of the immediate construction, ownership and control of the Nicaragua Canal by the United States. The failure of the Republican party to make any progress in carrying out a pledge contained in its platform four years ago, together with the substitution in its latest platform of a specific declaration in favor of the Nicaragua canal, would indicate that the Republican leaders either do not appreciate the importance of this great waterway to the maritime strength and commercial interests of the country or that they give too much consideration to the interested opposition of transcontinental lines.

The Haye-Pauncefote treaty, now before the senate, would, if ratified, greatly lessen the value of the canal. If it would not indeed convert it into a positive menace in time of war. The paramount interests of the United States in the western hemisphere, together with the obligations to defend the republic to the south of us, makes it necessary that our government shall be able to close the canal against any hostile power.

ARIZONA, NEW MEXICO AND OKLAHOMA

Arizona, New Mexico and Oklahoma have long been ready to assume the responsibilities and enjoy the privileges of statehood, and it will be a pleasure, as well as a duty, to carry out the platform pledges concerning them.

ALASKA AND PORTO RICO

There will be a popular acquiescence in the demand for government in Alaska and Porto Rico. Both are entitled to local self-government and representation in congress.

CUBA

The recognition contained in both the Democratic and Republican platforms of the right of the Cuban people to independence removes the general principle involved from the domain of partisan politics. It is proper, however, to consider whether the accomplishment of this purpose can be safely entrusted to the Republican party after it has yielded to the allurements of the Colonial idea, and abandoned the earlier faith in the natural and inalienable rights of man.

RECLAMATION OF ARID LANDS

The time is ripe for a systematic and extended effort to reclaim the arid lands and fit them for actual settlers. The latest agricultural report estimates the homes can thus be provided for many millions of people. The impounding and use of the waters which are wasted in the spring would people the western states with thrifty, intelligent, and industrious citizens, and they would furnish a valuable market for all the products of the factories. A small percentage of the money spent in a war of conquest would provide occupation and habitation for more people than would ever seek a residence in colonies within the tropics.

FOREIGN ALLIANCES

The reasons given by Washington, Jefferson, and the other statesmen of the early days in support of the doctrine that we should maintain friendly relations with all nations, but enter into no entangling alliances with none, are even stronger today than they were a hundred years ago. Our commerce is rapidly increasing, and we are brought into constant communication with all parts of the world. Even if we desired to do so, we could not afford to alienate many nations by cultivating unnecessary intimacy with one.

MONROE DOCTRINE

The doctrine enunciated by Monroe, and approved by succeeding presidents, is essential to the welfare of the United States. The continents of North and South America are dedicated to the development of free government. One republic or another has been established, until today nearly every island has barely a foothold in the new world.

DEPARTMENT OF LABOR

I can not too strongly emphasize the importance of the platform recommendation of the establishment of a department of labor with a member of the cabinet at its head. When we remember how important a position the laborer fills in our economic, social and political fabric, it is hard to conceive of a valid objection being made to this recognition of his services. Agriculture already represented in the president's official household; the army and navy have their representatives; the state department, with its consular service, and the treasury department, with its close connection with fiscal affairs, keeps the executive in touch with the business and commercial interests. A cabinet officer truly representative of the wage earning class would be of invaluable aid, not only to the laborer, but to the president.

CHINESE EXCLUSION

The Chinese exclusion act has proven an advantage to the country, and its continuance and strict enforcement, as well as its extension to other similar races, are imperatively necessary. The Asiatic is so essentially different from the American that he can not be assimilated

An Assessor Places the Value on Dr. Caldwell's Syrup Pepsin.

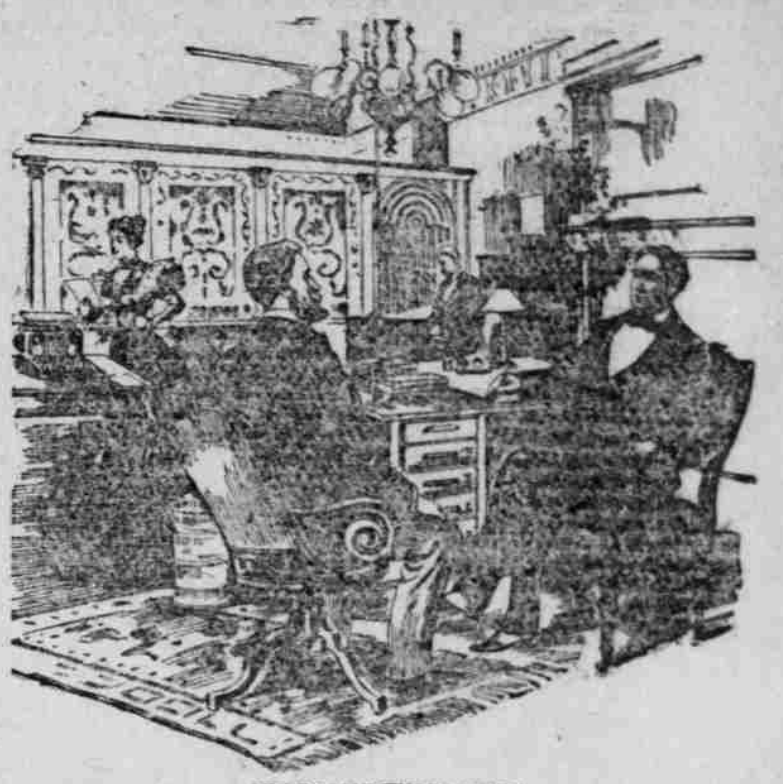

HUNTINGTON, IND., Sept. 1, 1899.

DR. CALDWELL,
Dear Sirs—I have had stomach troubles for twenty years, and was in bad health when I commenced taking your Syrup Pepsin. Everything I ate distressed me. I have taken three bottles of Dr. Caldwell's Syrup Pepsin and am still using it. I have no more pain in my stomach, have a good appetite, eat anything I want and work every day. I would advise all people suffering with stomach trouble to try your remedy.

G. E. RICKETT, Assessor,
Perry Township, Allen Co., Indiana.

SOLD BY
All Druggists, Wholesale and Retail.

SHE RECOMMENDED THEM.

DIRECTOR. That stenographer and typewriter who has been with you so long in a mighty pretty woman by the way; I notice that she appears to be always well. Her carriage is erect; her ways are brisk. She has good color, and her eyes are always bright.

PRESIDENT. What you say is true. For two successive years she has not failed one day in her attendance at the office and has never once been even late in the morning. But she takes time for her health.

DIRECTOR. What does a person with a temperament of steel and a constitution of iron, as you describe and as she seems, want of a patent medicine?

PRESIDENT. That is what I asked her one day, and she said: "Sometimes I do have a headache, and that is what I take these Tablets for. I don't know the cause of the trouble, but I do know that I can get rid of a headache as soon as I take a Tablet, and that is the result I want to accomplish. She says they are all the manufacturers' for them."

A new style tablet containing TEN SYRUP TABLETS in a paper container (each box for sale at some drug store)—for FIVE CENTS. This new product is intended for the people and the physicians. The cause of the trouble is the fact that the new style tablet is intended for the people and the physicians. The cause of the trouble is the fact that the new style tablet is intended for the people and the physicians.

EXTRAVAGANCE

The Republican party, drawing as it does enormous campaign funds from those who enjoy special privileges at the hands of the government, is powerless to protect the taxpayers from the attack of those who profit by large appropriations. A surplus in the treasury offers constant temptation to extravagance and extravagance, in turn, compels a resort to new means of taxation, which is kept in the background until the campaign is over, is a fair illustration of the imposition which will be attempted when there is a considerable amount of money idle in the treasury. The rehabilitation of the merchant marine, laudable in itself, is made the pretext for expending the public money for the benefit of large ship owners and in the interests of a transportation monopoly. The government has no right to collect from the people taxes beyond the legitimate needs of a government honestly and effectively administered, and public servants should exercise the same degree of care in the use of the people's money that private individuals do in the use of their own money. With a restoration of a foreign policy consistent with American ideas there can be an immediate and large reduction in the burdens now borne by the people.

INCOME TAX

By inadvertence the income tax plank agreed upon by the resolutions committee, was omitted from the platform as read and adopted. The subject, however, is covered by the declaration of the Chicago platform, and I take this occasion to reassert my belief in the principle which underlies the income tax whenever necessary and an amendment to the federal constitution specifically conferring such authority might be supported by even those who may think the tax unnecessary at this time. In the hour of danger the government can draft the citizen; it ought to be able to draft the pocketbook as well. Unless money is more precious than blood, we cannot afford to give greater protection to the incomes of the rich than to the lives of the poor.

IMPERIALISM

The subjects, however, treated in this letter, important as each may seem in itself, do not press so imperatively for solution as the question which the platform declares to be the paramount issue in the campaign. It is whether we shall adhere to or abandon those ideas of government which have distinguished this

No Delegation at Canton

Cleveland, O., Sept. 17.—Appeal to the Evening Plain Dealer from Canton, says: "It has been definitely decided that President McKinley will not receive delegation during this campaign, on account of the situation in the Canton. Delegations which were coming to Canton have been notified accordingly."

Damage to Property of J. A. Bradford

St. Louis, Mo., Sept. 17.—The National Bank of Commerce, St. Louis, has been notified that the property of J. A. Bradford, a St. Louis merchant, who was killed in the explosion at the St. Louis World's Fair, is valued at \$100,000.

A Tear for a Pain

Only expert mothers, or those who have borne children, know the full meaning of these words. Every woman should feel every other woman should feel the full meaning of these words. Every woman should feel every other woman should feel the full meaning of these words. Every woman should feel every other woman should feel the full meaning of these words.
